Roll length	100m	100m	300m	300m	100m
Thickness	0.45mm				

## PREPARATION AND APPLICATION

Turfstikk ST500 Seam Tape can be laid onto a sports surface either manually or by a Glue Machine.

A Turfstikk adhesive is then applied to the ST500 Seam Tape before bedding the artificial grass into the adhesive and allowed to cure.

Turfstikk ST500 Seam Tape along with Turfstikk adhesive will provide a weather resistant, durable and lasting bond for your sports surface.

## HANDLING AND STORAGE

Turfstikk ST500 should be stored in a cool dry place at a temperature between 5°C and 35°C. In these conditions it has a storage of at least 12 months.

**DISCLAIMER:** Due to the variation in materials likely to be handled by prospective users of this product, together with differences in production techniques and ultimate performance required, it is important that this product is thoroughly evaluated under production and end use conditions before being commercially adopted. Such an evaluation should incorporate an ageing test and this test should be repeated if the substrates on which the this product is used are changed in any way or are purchased from a different source. During the evaluation and testing of the product, it is the purchasers/end user's responsibility to carry out appropriate actions for the protection of the environment, the health and safety of its employees and purchasers of its products. No employee of Ureka Global Ltd has any authority to waive or change the forgoing provisions. The above recommendations are made in good faith for the guidance of users and are without liability. Any queries should be made in writing to the head office of Ureka Global Ltd.
